

Travel Insurance - Great Value for Money

Whether it's your trip, your possessions, your luggage, or your health, travel insurance is essential. *Have you ever thought of the risks that come with travelling:-*

1. Your flight is cancelled, your hotel is booked and non refundable.
2. You missed your connecting flight and had to stay for the night, you need urgent accommodation arrangements.
3. Your luggage is delayed or lost with all your possessions, valuable things or even you medication. How much will that cost, in comparison to what the airline will pay?
4. Your passport and other important documents are lost or stolen, in a foreign country.
5. You need to cancel your trip due to serious illness, but your hotel or airline booking is non refundable.
6. You had an accident, and need medical treatment. You may be required to pay for the cost of medicines or for your hospital bed. With the right travel insurance, medical emergencies can be handled efficiently and without extra expense.
7. A hurricane, flood, or various other natural disasters force you to evacuate your resort, hotel or cruise.

Remember, travelling is normally a rewarding experience. No one wants things to go wrong. However, sometimes they do. Being prepared for such problems is essential. That is why travel insurance protection is vital. Next time you make your booking with us, don't forget to ask about Travel Insurance.
